ADDENDUM TO CONTRACT

This Addendum to Contract ("Addendum") is entered into by and between the Red River Parish School Board (hereinafter "School Board") and Provine School Pictures (hereinafter "Vendor"). The Addendum is effective as of the _____ day of ____________, 20___.

During the 2014 Louisiana Legislative Session, the State of Louisiana enacted new laws governing the collection, disclosure and use of students’ personally identifiable information. The new laws require that any contracts between a school system and a third-party, who is entrusted with personally identifiable information of any student, contain the statutorily prescribed minimum requirements as to the use of personally identifiable information. In order to comply with the requirements of the new laws, this Addendum and the terms contained herein are hereby incorporated into the agreement previously entered into between Vendor and the School Board, entitled __________________________ and dated ______________ (the "Contract").

In accordance with La. R.S. 17:3913(F), Vendor agrees to protect personally identifiable information in a manner that allows only those individuals, who are authorized by Vendor to access the information, the ability to do so. Personally identifiable information should be protected by appropriate security measures, including, but not limited to, the use of user names, secure passwords, encryption, security questions, etc. Vendor’s network must maintain a high level of electronic protection to ensure the integrity of sensitive information and to prevent unauthorized access in these systems. The Vendor agrees to perform regular reviews of its protection methods and perform system auditing to maintain protection of its systems. Vendor agrees to maintain secure systems that are patched, up to date, and have all appropriate security updates installed.

To ensure that the only individuals and entities who can access student data are those that have been specifically authorized by Vendor to access personally identifiable student data, Vendor shall implement various forms of authentication to identify the specific individual who is accessing the information. Vendor must individually determine the appropriate level of security that will provide the necessary level of protection for the student data it maintains. Vendor shall not allow any individual or entity unauthenticated access to confidential personally identifiable student records or data at any time.

Vendor shall implement appropriate measures to ensure the confidentiality and security of personally identifiable information, protect against any unanticipated access or disclosure of information, and prevent any other action that could result in substantial harm to the School Board or any individual identified by the data.

Vendor agrees that any and all personally identifiable student data will be stored, processed, and maintained in a secure location and solely on designated servers. No School Board data, at any time, will be processed on or transferred to any portable computing device or any portable storage medium, unless that storage medium is in use as part of the vendor’s designated backup and recovery processes. All servers, storage, backups, and network paths utilized in the delivery of the service shall be contained within the United States unless specifically agreed to in writing by the School Board.

1
Vendor agrees that any and all data obtained from the School Board shall be used expressly and solely for the purposes enumerated in the original Contract. Data shall not be distributed, used, or shared for any other purpose. As required by Federal and State law, Vendor further agrees that no data of any kind shall be revealed, transmitted, exchanged or otherwise passed to other vendors or interested parties. Vendor shall not sell, transfer, share or process any student data for any purposes other than those listed in the Contract, including commercial advertising, marketing, or any other commercial purpose.

Vendor shall establish and implement a clear data breach response plan outlining organizational policies and procedures for addressing a potential breach. Vendor’s response plan shall require prompt response for minimizing the risk of any further data loss and any negative consequences of the breach, including potential harm to affected individuals. A data breach is any instance in which there is an unauthorized release or access of personally identifiable information or other information not suitable for public release. This definition applies regardless of whether Vendor stores and manages the data directly or through a contractor, such as a cloud service provider.

Vendor shall develop a policy for the protection and storage of audit logs. The policy shall require the storing of audit logs and records on a server separate from the system that generates the audit trail. Vendor must restrict access to audit logs to prevent tampering or altering of audit data. Retention of audit trails shall be based on a schedule determined after consultation with operational, technical, risk management, and legal staff.

Vendor is permitted to disclose Confidential Information to its employees, authorized subcontractors, agents, consultants and auditors on a need to know basis only, provided that all such subcontractors, agents, consultants, and auditors have written confidentiality obligations to Vendor and the School Board. The confidentiality obligations shall survive termination of any agreement with Vendor for a period of fifteen (15) years or for so long as the information remains confidential, whichever is longer, and will inure to the benefit of the School Board.

Vendor acknowledges and agrees that unauthorized disclosure or use of protected information may irreparably damage the School Board in such a way that adequate compensation could not be obtained solely in monetary damages. Accordingly, the School Board shall have the right to seek injunctive relief restraining the actual or threatened unauthorized disclosure or use of any protected information, in addition to any other remedy otherwise available (including reasonable attorney fees). Vendor hereby waives the posting of a bond with respect to any action for injunctive relief. Vendor further grants the School Board the right, but not the obligation, to enforce these provisions in Vendor’s name against any of Vendor’s employees, officers, board members, owners, representatives, agents, contractors, and subcontractors.

Vendor agrees to comply with the requirements of La. R.S. 51:3071 et seq. (Louisiana Database Breach Notification Law) as well as any other applicable laws that require the notification of individuals in the event of unauthorized release of personally identifiable information or other event requiring notification. In the event of a breach of any of the Vendor’s security obligations or other event requiring notification under applicable law, Vendor agrees to
notify the School Board immediately and assume responsibility for informing all such individuals in accordance with applicable law and to indemnify, hold harmless and defend the School Board and its employees from and against any and all claims, damages, or causes of action related to the unauthorized release.

In accordance with applicable state and federal law, Vendor agrees that auditors from any state, federal, or other agency, as well as auditors so designated by the School Board, shall have the option to audit Vendor's service. Records pertaining to the service shall be made available to auditors and the School Board when requested.

Vendor agrees that if the original Contract is terminated or if the original Contract expires, Vendor shall return all data to the School Board in a usable electronic format. Vendor further agrees to erase, destroy, and render unreadable, all data in its entirety in a manner that prevents its physical reconstruction through the use of commonly available file restoration utilities. Vendor shall certify in writing that these actions have been completed within 30 days of the termination of the Contract or within seven (7) days from receipt of any request by the School Board, whichever comes first.

The terms of this Addendum shall supplement and supersede any conflicting terms or conditions of the original Contract between the Parties. Subject to the foregoing, the terms of the original Contract shall remain in full force and effect.

Who We Are
Provine School Pictures, L.L.C. is a privately owned and operated photography company. We provide various photography services to schools, businesses, and individuals throughout the United States. These services include, but are not limited to, printed and digital photographs and related photographic keepsakes/gifts, service items for schools such as yearbook CDs, record rolls, and administrative CDs, as well as services for various fundraising events.

Privacy Statement and Policy
Provine School Pictures is committed to protecting each person's fundamental right to privacy. We strive to attain the highest level of customer satisfaction and value the trust our customers place with us. Where reasonably necessary and useful in our business, we may collect and use nonpublic information about our customers such as billing and shipping information, credit card information, and checking account information in order to process orders and provide an exceptional customer experience. We do not store credit card or checking account information past authorizing a purchase. All personal information is protected by secure server software and will never be sold, traded, or rented to third parties.

Disclosure of Information
In order to provide service items such as administration and yearbook CDs, certain information must be transferred from the customer (i.e. school) to Provine School Pictures. This information is typically student or faculty first name, last name, teacher, grade, and student ID in the form of a electronic data file. This data file is transferred electronically via private email, where once received, a combination of safeguards are put in place to prevent unauthorized access to it. The handling and manipulation of all data is overseen by Provine's IT Specialist. The information included in this data file may also be used by our photographic laboratory in the creation of said products and/or services, however this is not a sale, trade, or rent of information. Information used to create these data files are purged annually, when they are no longer needed to create products required by clients.

Secure Site
We maintain procedures designed to ensure the security of your information. All personal, credit card and banking information is transmitted online using industry standard security measures known as SSL (secure socket layer) encryption. We are committed to adopt new technological improvements that will allow us to further ensure this security. In the event of a breach of information, Provine will 1.) identify the breach, 2.) identify any compromised information, 3.) take necessary measures to eliminate vulnerabilities to threats/attacks, and 4.) notify any affected clients.

For more information, please contact us at 318-442-9484 or email us at provine@provinepictures.com.
